No. TCP—14. **Press Note.** 11th March 1952

In pursuance of the recommendations made by the Cotton Advisory Board, the Textile Commissioner has amended the Price Notification under the Cotton Control Order, 1950, to provide for the following :—

(i) 'On' allowances of Rs. 70 and Rs. 100 respectively for 3/32" and 4/32" over the basic staple of 'Western'.

(ii) Relaxation of the condition regarding' Protected 'Area' in respect of 'Rajapalayam' cotton grown in the Bombay State and 'Kalyan' cotton grown in the States of Bombay and Saurashtra.

(iii) Inclusion of 'Laxmi' cotton grown in the Bombay State in the definition of 'Cambodia' instead of under 'Upland'. This enables the cultivator of 'Laxmi' cotton in the general area to obtain for it the price specified by the Textile Commissioner for 'Cambodia' in the price Notification. The 'maximum price' for 'Laxmi' cotton of the top class and staple grown in the general area will now accordingly be Rs. 1,180 per candy. 'Laxmi' cotton grown in the 'Reserved Area', however, continues to be outside price control, an allowance of 6 As. per lb. of yarn woven being admissible as was applicable to the Laxmi cotton grown in reserved areas in 1950-51.

TCP—15. **Press Note.** 11th March 1952.

The question of a suitable allowance in the prices of yarn and cloth for the use of 21F R/Gd. has been under consideration for some time, as it was claimed by the growers and the trade that it is a superior cotton meriting a price higher than the ordinary varieties of Indian cotton. In the absence of an allowance the Textile Industry has not found it possible to purchase this cotton. After careful consideration, the Government of India have decided to allow the use of 21F R/Gd. Cotton in the manufacture of yarn of the appropriate counts and cloth in groups VII and VIII. For the purposes of price fixation, Government have decided to grant an allowance of 2·6 annas per lb. of yarn woven, for warp in group VII, and 2·6 annas per lb. of yarn woven, in warp and weft in group VIII on application by the Mills. These allowances will be subject to the following conditions (of which proof will be required) :—

(i) the cotton has been grown in an area which is a "Protected Area" under the Cotton Transport Act, 1923 or any corresponding Act;

(ii) the seeds required for sowing such cotton in the relevant areas should have been duly approved and supplied by the Department of Agriculture of the State concerned;

(iii) the crop of such cotton should have been rogued and off-type removed; and

(iv) the ginning and pressing of the crop of such cotton should have been done under the supervision of the Department of Agriculture of the State concerned and a certificate of purity issued by the said Department for the pressed bales.
